

# LIGHT TOWER RANGE GRILLAGE

Tower heights:  
12 m to 20m (2m increments)

Light loads of 1 - 4 square meters

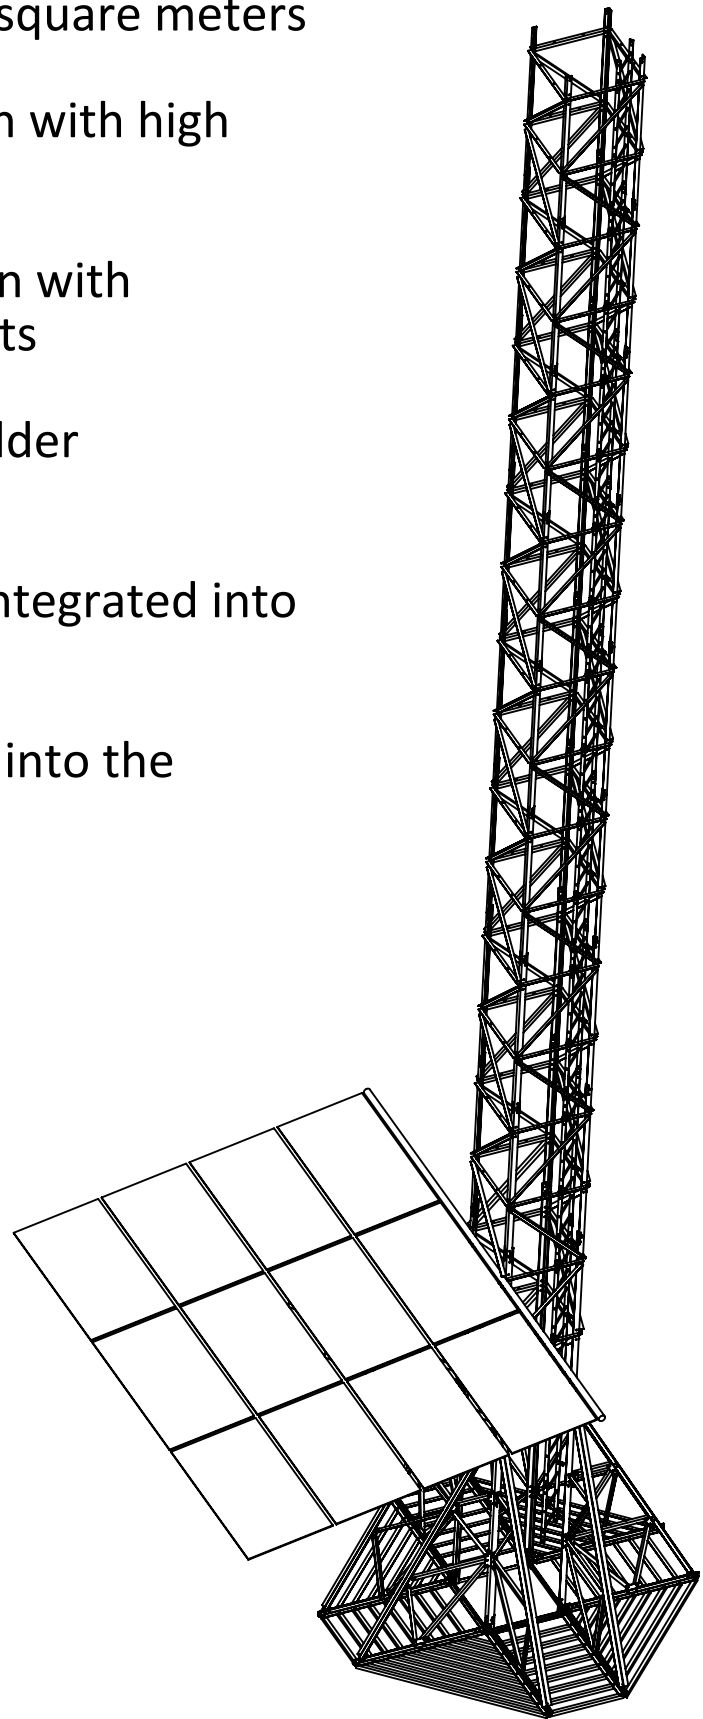

Lattice construction with high rigidity

Simple Construction with  
Few different parts

Easy access and ladder  
throughout

Solar panel stand integrated into  
the tower design

Fencing integrated into the  
grillage design

Grillage foundation for  
Rapid deployment without  
the need for concrete

Ground
